CPG CAG Presentation Slides - Nov 13 FINAL.PPTX

I would like to PDF and post your presentation from last night's CAG meeting onto the web site (ourPassaic.org). I wanted to double check that what you sent to Debbie on Wed night was the final version you presented?

Hi Debbie here are the slides we are planning to use tomorrow. We are still waiting for one bit of information but I didn't want to wait any longer to send the slides to you.

On slide 11, a fourth bar will be added called "EPA Combined Remedy." As it is now, this slide assumes that only the action contemplated in the FFS is taken. This fourth bar will assume that targeted removals are subsequently performed above RM 8. This information is included in the risk slides # 14 and 15 and needs to be added to slide 11. As soon as that is done I will send that too.

Ray
